SO MANY YOUNGSTERS Have Croup

Hardly one child in a hundred escapes croup and in many cases it is dangerous. It always has the prospect of danger if not handled properly. We offer **OUR CROUP REMEDY** which can be taken internally or rubbed on the chest and which loosens the congestion and restriction and restores the breathing and takes away the pain. Mothers should have a package of this croup remedy handy. It is a fine insurance for baby's health.

CHAMPION DRUG CO. Druggists and Chemists.

B. M. Roberts big sale is attracting attention from outside points as well as at home. The values offered are very attractive. See page ad in this issue.

The Catholic Women's League will hold a bazaar in the old printing office, next door to telephone exchange, on December 19th. The offerings will include sewing, fancy work, poultry and home baking. Tea will be served.

Asia has the largest population of any of the continents, 921,000,000, which is about 53 individuals to the square mile.

The Irish Free State has imposed a tax on bachelors.

Sweden is said to be the most civilized country in the world.

Rev. A. A. Lytle, Field Secretary for the South Alberta Auxiliary of the Canadian Bible Society, will give a Lecture in the United Church on Friday, December 1st at 8 p.m. The subject will be, "The Bible in the World." An offering will be taken for Bible Society work. Everybody welcome.

There are more houses in Belgium today than there were before the war started.

CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, Nov. 29.

11 a.m.—Sunday School.

7:30 p.m.—Public worship.

Sermon by Mr. Lee, and selection by the choir. All welcome.

Vulcan Band Concert Dec. 3rd

The date of the Vulcan band concert has been changed from Wed. Dec. 2nd, to Thursday evening, Dec. 3rd, at 8:30 sharp. This concert will be held in Campbell's hall, and promises to be a real treat. The Vulcan band has a full evening's entertainment, and their concerts in other towns have proved a wonderful success. Come early to be sure of a good seat. Admission adults 50 cents, high school students 25 cents and kiddies 15 cents.

Next Sunday afternoon at 2:30 o'clock Evangelical Lutheran church services will take place in the local Union Church building. A cordial invitation is yours.—R. J. Moosner, Ev. Luth. Pastor.

Rev. and Mrs. J. Lee and wife were in Carmangay on Tuesday, for the meeting of The Ministers' Club, when they were the guests of Rev. and Mrs. H. M. Horricks.

Short Course for Creamery Workers

A three weeks' creamery course is now being offered partly by the University and the Department of Agriculture, commencing Tuesday morning, December 1st, at 9 o'clock, in Room 138 of the South Laboratory, University of Alberta.

The course is planned for people who have already had some practical experience in creamery work and intend to again return to it.

Lessons will be given each day during the course on all principles and methods in the production and handling of milk and cream; the grading, testing, grading and pasteurization of cream; buttermaking; grading and composition tests of butter; the testing of milk and cream for butterfat and acidity. Briefly, it will provide the student with a picture of dairy business, including the details of cream testing and checking the details of the various operations. Sufficient time will be taken to review and discuss the work done during each period.

The course will be arranged so that creamery workers who are not in a position to attend the full course may be able to plan a short stay and still participate in the line of work.

Those who plan to attend the course should notify the Department as soon as possible, and bring with them their butter tries, note books and clear white overall suits or aprons.

A further course will be offered, to commence Tuesday morning, January 5th, 1926.

Chautauqua Was Real Success

Chautauqua, which closed on Saturday evening, was the most successful yet held here. All the sessions were interesting and were largely attended, everyone being pleased with the programs put on this year. Needless to say Chautauqua returns here next year as usual. Miss Helen Ramsay had charge of the situation here this year.

Don't Miss This Afternoon Tea

By a mistake a notice of a tea to be given by Mesdames Mason, Freez, Campbell, and Moffatt at the home of Mrs. Campbell on Tuesday, December 1st, was not featured as it should have been in last week's issue. The tea is in aid of church funds and the invitation to attend is general, in fact attendance is urged upon all interested in assisting in that direction. A silver collection will be taken.

A two year record in car loadings on Canadian railways was broken in the week ended Nov. 7, when a total of 77,370 car were loaded. This figure surpasses the 1924 peak by 2,769 cars, and was greater by 773 cars than the 1925 record established in the week ended Oct. 17. The cumulative total for 1925 for the first time passed the corresponding 1924 total, the increase now being 4,594 cars, according to the Dominion Bureau of Statistics.

The marriage of F. M. Steeves and Miss Amy Ruggles, takes place at the residence of the bride's parents, Mr. and Mrs. J. A. Ruggles, of the Guess Ranch, to-day (Thursday), at 2 o'clock.

LISTEN!

The Union Church Choir are going to entertain you on Wednesday, Dec. 9.

The ORANGE PEKOE is extra good. Try it!

A War Of Extermination

Despite the fact that the citizens of the great European nations, and the League of Nations, are earnestly striving to bring about understandings and conditions which will have the effect of preventing future wars, we nevertheless read in magazines of this and that invention and the effect it will have on the next war.

The "next war" is, as a matter of fact, now being waged. It has been in progress for some time and is increasing in intensity. But instead of being a war between man and man, it is a war of extermination between man and insects. Man has won victories in certain parts of the battle line which extends across the world, although the language of the late Great War has not yet been used in fully consolidating his position, that man has won his victory secure and lasting. In other sectors, the insects still have the upper hand and seem to be gaining.

The battle between man and the insects is not spectacular but it is a strenuous and extremely costly one fraught with grave possibilities if there is any slackening in man's onslaught until final and complete victory is obtained.

In the Canadian House of Commons last session, Hon. W. R. Metherell, minister of agriculture, made a brief statement regarding the offensive being waged under the direction of that department against crop destroying insects in Canada when he was asking for an immediate appropriation for this work, now that the insects had already done considerable damage to the cotton crop and extending the scope of public service.

Addressing the Rotary Club of Ottawa a few days ago, Dr. Arthur Gibson, elder of the entomological branch of the Department of Agriculture, stated that from 10 to 25 per cent. of every crop grown is destroyed by insects, while millions of dollars of railroad and telegraph lines have been damaged.

It is estimated that the insects have caused \$2,000,000 each and every year, and it has been prophesied that this beetle may in time ruin the cotton growing industry of that country.

The hot, or warbley, which affects cattle, causes a loss in Great Britain of from \$10,000,000 to \$25,000,000 annually.

Here in the West we have bitter experience what the sawfly and other insects do to the grain crops, and how many a promising field has been ruined by them.

But it is not in relation to crops and cattle that insects are waging their war. Until recent years, one of the chief rates of death among the people in the tropics was due to malaria transmitted from man to person by the mosquito. For more than a score of years the mosquito held up the construction of the Panama Canal. Between 1881 and 1882 twenty-two thousand laborers on canal construction died of malaria or yellow fever, and the failure of successive canal companies was due to the mosquito, and it was the United States engineers studied and fought the mosquito until the canal was finally constructed.

The Rockfeller Foundation has provided millions of dollars for a campaign against the mosquito.

But if this war against the insects is to succeed it must not be left solely to Government, scientific bodies and interested experts. As in the Great War, the whole manhood and womanhood of the nations must be mobilized for victory.

The common house fly is a much more dangerous enemy of man than the average person : alizes. If typists, dentists and other "dearies" are to be wiped out, the flies and disease-carrying insects must be made to pay a stinging bill.

Government experts have compiled much valuable information against insects—those which should be fought and destroyed and those which are allies to man. It remains for the individual citizen to apply that knowledge and co-operate with the Government departments of health and agriculture in waging the battle upon the successful outcome of which depends human lives and countless millions of dollars' worth.

100-Sterling Buildings

The American city of 2000 A.D. will have buildings 100 or more stories in height, with landing stages for aircraft, and the streets will be two or three times as wide as those of our civilization. This is the conception of the future, the Book of Remembrance, a handbook of specimens of skilled workmanship as sketched by artists and architects who will exhibit their ploratory prophecies as one of the features of the American Institute of Steel Construction.

Dedicate Book of Remembrance

The seventh anniversary of the end of the Great War was commemorated in Halifax by a service of special interest. The service was opened with the singing of the Hallelujah Chorus marked by the dedication of the Book of Remembrance, a handbook of specimens of skilled workmanship containing the names, so far as they were procurable, of all the men and women of the provinces of Nova Scotia who fell in the Great War.

Wrap up warm inside

On a raw winter's day you wouldn't venture out without a good overcoat to keep out the cold. But your inside wants keeping warm as well.

Make a practice of drinking BOVRIL regularly during the winter months. It keeps up your vitality and helps you to resist colds, chills and influenza.

Homestead Entries

File On 29 Homesteads In Four Western Provinces in Western Canada

Homestead entries in the four western provinces during the month of September numbered 29,000, a decrease as compared with the same month last year, according to a report issued by the Dominion lands branch. During September last two homesteads were taken up in Alberta; ten in Saskatchewan; fifteen in Alberta and two in British Columbia.

Agony Of Lumbargia Quickly Soothed Away By "Nervine"

For the sharp, piercing pain of Lumbargia, and the tormenting aches of sciatica, so quick to bring comfort and relief as good old "Nervine". This is the secret of "Nervine". This the "Issue very quickly, sinks at once to the core of the pain, draws the muscle into a state of rest, thereby relieves the pain in a short time. Those who suffer from stiff muscles, and are unable to sleep, should use "Nervine".

Addressing the Rotaract Club of Ottawa a few days ago, Dr. Arthur Gibson, elder of the entomological branch of the Department of Agriculture, stated that from 10 to 25 per cent. of every crop grown is destroyed by insects, while millions of dollars of railroad and telegraph lines have been damaged.

It is estimated that the insects have caused \$2,000,000 each and every year, and it has been prophesied that this beetle may in time ruin the cotton growing industry of that country.

The hot, or warbley, which affects cattle, causes a loss in Great Britain of from \$10,000,000 to \$25,000,000 annually.

Here in the West we have bitter experience what the sawfly and other insects do to the grain crops, and how many a promising field has been ruined by them.

But it is not in relation to crops and cattle that insects are waging their war. Until recent years, one of the chief rates of death among the people in the tropics was due to malaria transmitted from man to person by the mosquito. APPEAL IS MADE BY CURRIE FOR NATIONAL UNITY

Hamilton, Ont.—A stirring appeal for national unity as a lasting legacy to the sons of Canada who paid the price of victory with their lives, was made by Sir Arthur Currie, who officiated at the dedication of the memorial school to the memory of the men and women who died in the Great War.

Canadians of today had a solemn obligation resting upon them, said Sir Arthur, "to live up to and conserve the traditions of our fathers and our fathers."

Because of the sacrifice of her sons, Canada had reached a place in the world which a short time ago was considered impossible of attainment.

With pride, Sir Arthur said that Canada had won the laurels as head of the League of Nations.

"Camaraderie and unselfishness were qualities of the Canadian soldier," he declared, "and there arose a unity of purpose among men never seen before. Why should we not have second-best in Canada? Why east or west? Why creed distinction? Why should we not be proud for courage in times of peace when it was not possible to do so in times of war? It is not Africa, or New Scotia, Quebec or Ontario, but Canada. That is the spirit we want. It is the spirit which is worthy of the men whose memory we commemorate to-night."

Resents Action Of Pacific Cable Board

Report Says Postmaster-General Takes Exception to Methods Adopted Respecting New Cable

London.—The Daily Express says it understands that the Postmaster-General of Canada, Hon. H. G. Hoffman, has recommended the Dominion Government should withdraw from partnership in the Pacific cable board.

The wireless, the Express says, is to be given a prominent place in the new things, that duplication of the cable from Banff, Vancouver, to Fiji, was decided upon in the absence of Canadian representatives and the contracts were signed before the Canadian Cable's protests and in defiance of provisions of the Imperial Cable Act, under which, unaniimly in such matters is essential.

Ottawa.—In a circular issued to the press, Mr. Charles Murphy, general information in regard to the new cable, is not available, although it is said the government has not yet taken any definite step, looking to the withdrawal of Canadian participation. It is understood, however, that Mr. Murphy has taken strong objection to methods adopted by the board in respect to the new cable.

Canada's Total Trade Shows Big Increase

For Seven Months Ending October Increase Was \$17,000,000

Ottawa.—Canada's total trade increased \$18,700,000 during the seven months ended October, according to figures issued by the Department of Customs and Excise. The increase is in comparison with the figures for the corresponding seven months of the previous fiscal year.

As between export and import trade, it is to be noted as follows: Increase in export trade \$12,000,000; increase in import trade \$8,600,000. Total trade increase \$17,600,000.

Over the same period there was an increase in exports of farm products, classed as manuf. food, was fifty-two millions; in farm products other than foods, thirteen millions; in animal and unadorned products, twenty-seven millions. Exports of wood, wood products and paper increased sixteen millions.

Says Hydrogen Will Run Motor

Toronto.—Professor J. C. McLean, head of the physics department at the University of Toronto, who, for his discoveries and researches with helium, predicts that there will be some day a new type of motor which would receive its power from hydrogen and the driver will carry extra weight in his west pocket.

Agreement Reached

Perth.—The customs conference announces that its sub-committee appointed to elaborate a formula regarding the restoration of the customs union has arrived at a complete agreement. The formula was submitted to a full meeting of the delegates on November 19.

Saskatchewan Corn Show

G. H. Hoffman, Maple Creek, Carries Sweepstakes

G. H. Hoffman, Saskatchewan's corn king at the first corn show held in Maple Creek, was again awarded the best individual corn show held at Indian Head.

Maple Creek made a clean sweep of the special prizes, for in addition to the sweepstakes, Mr. Hoffman won the silver trophy cup offered by the Great Western Bank for the best exhibit of ten ears of any variety of white or yellow corn, winning this competition with Minnesota No. 12.

A. J. Colquhoun, of Maple Creek, won the shield offered by the Regina bank for the best exhibit of a variety of ears of corn held in, and also the silver can be donated by the Saskatchewan Wholesale Implement Association for permanent competition amongst Saskatchewan exhibitors showing for the first time.

For the first time, the silver cup offered by the Saskatchewan Creamery Company for the best ten ears exhibited by a girl in the junior section.

A. S. G. McLean, of Prince Albert, won the trophy for the best sheet of corn grown under field conditions. His sheet was considered by the judges to be one of the finest exhibits of the whole show as there was a great variety of ears and ears that would all have been prize ear competitors out of the foliage.

Three other prizes were awarded to D. Hoffman, G. H. Hoffman, and E. G. Hoffman, Maple Creek.

Saskatchewan's fourth provincial corn show will be held at Estevan. The invitation, presented by T. A. Torgeson, president of the Estevan Agricultural Society, and managing director of the Prairie Nurseries, was accepted.

August Peterson, Weyburn, was elected as president of the association, with T. A. Torgeson, Estevan, as vice-president. The full board of directors followed.

Hon. W. R. Matherwell, Hon. C. A. Denning, Hon. C. M. Hamilton, Dr. Angus McKay, T. A. Torgeson, Estevan; second vice-president, T. Collier, Estevan; president of the Saskatchewan Canners Association, Collier Moore, Estevan; executive, A. G. Garisch, Estevan; W. C. Chompol, Estevan; A. A. Everden, Estevan; Bob Bradbury, Estevan; G. D. Matthews, Indian Head; Dr. J. C. McLean, Melfort; S. S. Slauson, Estevan; Spec. Member, F. Burson, Vanguard; G. J. Taggart, Swift Current; H. S. Asworth, Elk Point; Prof. C. Kirk, Saskatoon; Prof. G. Raynor, Saskatoon; Prof. G. E. McLean, Estevan; G. W. Wright, Prince Albert; Paul Miller, Wakaw; Tom Bowles, Empress; Bert See, Weyburn; Norman M. Ross, Indian Head; R. M. McCull, Empress; W. H. Warren, Belvoir; G. J. Hoffman, Maple Creek; C. Marks, Midale; W. H. Gibson, Indian Head; Percy E. Read, Regina.

Has Faith In Canada

H. Henry Thornton Entertained at Dinner in British House of Commons

London.—Indeed that Canada was on the right road to prosperity was expressed here by Sir Henry Thornton, president of the Canadian National Railways, who was entertained at dinner in the House of Commons by Mr. Lloyd George.

Sir Henry spoke of the opportunity awaiting the investment of British capital in Canada, and emphasized the importance of obtaining British capital in the Dominion rather than capital from foreign sources.

Through the speakers were Prof. Baldwin, former Prime Minister, and Right Hon. Winston Churchill.

Approve Peace Pact

British House of Commons Ratifies Security Agreement

London.—The House of Commons passed the crowded House of Commons when ratification of the European (or Entente) security pact—the Treaty of Mutual Guarantees—was voted 375 to 12. A Labor amendment was defeated 325 to 12.

When the speaker put the motion for approval, presented by Austin Chamberlain, secretary for foreign affairs, there was an almost unanimous shout in favor. But back of the scenes, the Laborites were calling for a division. The majority of the Laborites voted with the government, but about a score abstained from voting.

To Negotiate Treaties

London.—The Daily Mail says the Irish Free State is about to negotiate economic treaties with France and Germany. Both France and Germany believe they will find a market in Ireland.

Canadian Exhibit Is Success

Glowing Accounts Received at Ottawa From New Zealand

Ottawa.—Delegates from Dunedin, N.Z., to the department of immigration here, contain glowing accounts of the Canadian exhibit which the Canadian government sent to the Dunedin exhibition which was opened Nov. 17. The dispatch, from D. H. Ross, Canadian trade commissioner in Australia, who is in charge of the Dunedin exhibition, says the Canadian section is as follows:

"The exhibition covers 36 acres, and is one-third the size of Wembley. The Canadian court is 27,000 square feet in area and is the most popular attraction in the grounds."

"The most attractive entrance gates to the court are inscribed with a 'Welcome.' At the end of the main corridor is a striking diorama showing a scene of a winter minute in a series of natural rocks, trees and shrubs with a background depicting actual scenery of the Canadian Rockies."

"The lighting system changes at intervals, from broad daylight to moonlight, providing a spectacle that has not been seen at any previous Canadian exhibition. Canadian emblems, including maple leaves, beavers, and moose, and the coat of arms of the dominion, are used extensively."

The French forces, now amounting to 20,000 effective in Syria, he continues, were insufficient, and he laid stress on the need of reinforcements.

Commercial rates on application.

THURSDAY, NOV. 25, 1925

NOTES AND COMMENT.

The retirement of Premier Greenfield and the elevation of Hon. J. E. Brownlie to his position is the big event in provincial politics this week. While the change has been predicted for some time its accomplishment still has an element of surprise. To have placed a lawyer at the head of the U. F. A. would scarcely have been popular four years ago and even yet seems a further departure from the original principles of that organization. Apparently the former members have decided that politicians are a necessary element in a cabinet as well as a lawyer. At the present time it is difficult to surmise just what the effect will be in the coming elections. The change is evidently expected to improve U. F. A. chances.

It is said that the addition of lashes to the penalty for holding up men in Winnipeg has had the effect of almost eliminating this class of gentry. From recent appearances a whipping post is needed here as petty thieving seems to flourish most of the time.

The Alberta Provincial Seed Fair will be held in Calgary in January, during the period of the Convention of the United Farmers, the dates of which are January 19, 20, 21 and 22. It is expected that there will be a good competition again this year in all classes. Prize lists for the seed fair will be available within a few days, and may be obtained from the field crops branch of the Department of Agriculture.

The Ladies' Aid Bazaar opens at three o'clock on Saturday afternoon Nov. 28th, in W. C. Hoskins' store. It will continue during the afternoon and evening. Some beautiful Christmas presents will be among the offerings, which will be unusually extensive.

Champion Consolidated School Report

Standing of Pupils Oct. 31st.

Grade XI—Lorna Schroder 88 (per cent), Bernice Johnson 77, Rachel Smith 73, Ella Stephenson 64, Lorne Campbell 61, Joe Mark 57.

WORLD HAPPENINGS
BRIEFLY TOLD

The French navy department plans an air expedition to the North Pole next spring, to include a flight from the Pole to New York.

In an interview, J. J. Gibbons, Toronto advertising man, suggests that Western Canada farmers form a four-pool.

A 7-passenger, twin-engine flying boat, claimed to revolutionize forest fire fighting methods, is being tested in Manitoba.

Contractors for nearly 100,000 tons of coal for delivery to Chinese emporiums have been signed by the communist of foreign trade at Moscow.

There will be no provincial election in Manitoba in 1956, Premier Bracken announces, his intention being to call for the full term.

Clarence Sutherland Campbell, B.A., an Edmonton man, has been awarded the Alberta Rhodes Scholarship for 1955.

A new comet between the Sun and 9th magnitude, appearing in the "Hunting Dog" constellation, has been discovered by Dr. Verner Van Biesbroeck, University of Uppsala.

A White House guard at the time of Abraham Lincoln's assassination, chief of army scouts under General Custer and a friend of Buffalo Bill, Peter Beckley, \$3, is dead at Colorado Springs.

Canada's first steamship was chartered at London to carry a rich man who could not endure the pock of a steamship or a railway and steamer trip. Special shock-absorbers were introduced and the trip made in safety.

Canadian shipping lines expect the United States will still be dutiable at 10 per cent. Last year a United States treasury decision admitted them free as "sticks of wood in the rough."

Argentina will harvest less of the most important crops in the history of the season of 1955-56, it is learned by the ministry of agriculture's first report of the season on conditions of cereal and linseed yields.

Cheapest of all Oils—Cordial oil, the most popular oil in the United States, is the cheapest of all preparations offered to the public. It is to be found in almost every grocery store from coast to coast and all confectionery merchants keep it for sale. Soaking easily, it is strong and extremely inexpensive. You can obtain it without a bottle or it.

Practice

Woolington: "Can I borrow a cigar?"

Woolington (tersely): "Well, you ought to be able to do it yourself. The importation of butter into Great Britain is increasing."

**Believe Alaska Was
Once Tropical Country**

U. S. and Agitators

Will Curt Preggo, Who Has Been Coming Dangerous to the State?

A great class impulsion is manifest in the United States with the malcontent element of the population, mostly of foreign birth or descent, who take every opportunity of maligning the government and its institutions, and of bringing privacies unknown in the countries of their origin. A series of recent events indicate that the long-suffering authorities are nearing the limits of toleration for the disgruntled and that the time has come when the governmental power should be upon matters vitally affecting the welfare of the nation and the preservation of the American spirit. The attempts of New York groups to banish the press and to banish distinguished citizens or visitors have been receiving adequate police attention of late weeks, while the raids made by Scotland Yard upon Communist headquarters indicate an intention to curb propaganda which has become during the degree of danger.

Diet and Disease

Introducing the Fundamental Principles
Of Food Chemistry in the Public
Mind

Sir William Arthur Lane, of London, tells the American College of Surgeons that 95 per cent. of all human diseases are eating themselves into an early grave.

Says he: "It is not an exaggeration to say that we suffer and die through the things which arise in our alimentary system."

In this opinion Dr. Charles Mayo and most of America's greatest surgeons agree.

Food chemistry has become the greatest single factor in the prevention of disease and the public health and, within the next five years, the first and foremost task of the medical profession will be to instill the fundamental principles of food chemistry into the public mind.

Once the taste is taught how to eat, hospital and operating theatres will go out of business. —Vancouver Sun.

Canada's first steamship was chartered at London to carry a rich man who could not endure the pock of a steamship or a railway and steamer trip. Special shock-absorbers were introduced and the trip made in safety.

Canadian shipping lines expect the United States will still be dutiable at 10 per cent. Last year a United States treasury decision admitted them free as "sticks of wood in the rough."

Argentina will harvest less of the most important crops in the history of the season of 1955-56, it is learned by the ministry of agriculture's first report of the season on conditions of cereal and linseed yields.

Cheapest of all Oils—Cordial oil, the most popular oil in the United States, is the cheapest of all preparations offered to the public. It is to be found in almost every grocery store from coast to coast and all confectionery merchants keep it for sale. Soaking easily, it is strong and extremely inexpensive. You can obtain it without a bottle or it.

It takes two and a half gallons of oil to make a pound of butter, but which the farmer can get about two shillings and two pence. Even in summer he can sell his milk in the cities for a shilling a gallon, so that this is much more to be made by the latter transaction. As far as

the importation of butter into Great Britain is increasing.

**Believe Alaska Was
Once Tropical Country**

Prospectors Plan to Make Further
Investigations Next Summer

Buried tree trunks found in Alaska have set scientists wondering if Alaska was once a tropical or semi-tropical country. Prospectors who recently returned from the interior brought them samples of sand and bark of strange trees which they had found at the bottom of a shaft they had dug. The tree trunks had been ascended the Kokan River and travelled forty miles south. Here in numerous holes they found deep sand in layers similar to the drift of sand, stems of trees, and a great deal of bark, all broken and without any signs of life.

The report says that the battery is so small that it can be carried in a person's pocket.

It is estimated that less than 3 per cent. of successful men remember anything about algebra.

Cuts Popular

Canada is taking the fur coat in preference to the fur-lined variety, according to the latest figures. The number of fur coats, both women's and men's, is increasing, while that of fur-lined coats is declining.

Last year, there were 46,619 women's fur coats in Canada, but only 39,900 men's fur-lined coats.

If all were accounted to do some useful, where would the world get?
